

# This tells the Story

At the time that all the great furniture factories of the country were arranging to enter into a giant combine to raise prices one of our corps of buyers received a quiet tip and notified headquarters. The day before the trust was organized we had closed contracts for all our stoves for the entire fall stock at the old prices. The next day the manufacturers advanced their prices 20 per cent. and 50 per cent. two weeks later. The telegram and newspaper clipping tell the story. The goods have now arrived. We bought at a tremendous saving and they go to you on the same liberal basis, a saving of a fourth on everything you buy. The newest, handsomest and best things from the world's best makers. Every article a bargain.

**DEACON.**  
WILL CONTROL THE FURNITURE TRADE.  
Gigantic Combination is Formed at Chicago.  
CHICAGO, May 21.—Two hundred leading furniture manufacturers of the country who came to Chicago Tuesday to attend the annual business meeting of the National Association of Chamber Suits and Case Manufacturers. It was announced to-day, formed a combination of pool which will control the furniture output of the United States and regulate prices.  
The capital represented is about \$1,000,000. The organization adopted a new schedule to go into effect at once, which will increase the cost of all the best grades of furniture 10 to 20 per cent. The new combination, it is said, includes 90 per cent of the manufacturers of the country.
